Forecast for Wednesday 26 Jun 2024

Weather: Low cloud and patchy drizzle during the early morning, but clearing quickly through the morning. Then sunny spells through the afternoon with a small chance of the odd shower, but most places will stay dry.

Chance of cloud-free hill tops above 600m: 60% quickly becoming > 95% by mid-morning.

Low cloud and visibility: Poor visibility in early mist and fog patches in valleys with the odd drizzle on north facing upslopes further west. Mist, fog and low cloud soon lifting and breaking with a fine afternoon with excellent visibility. Low chance of visibility falling to moderate in very isolated showers, during the afternoon.
